Principal's Message

As you enter LeConte Elementary, you encounter a variety of colorful sights, the sound of bilingual voices, and aromatic smells. Our main hallways display students' creative work as well as photos of family events, student performances, and assemblies. As you approach our multicultural school library, the smell of garlic and seasoning begins to draw you towards our cooking class and farm and garden. Here at LeConte, we take pride in providing an environment that meets the academic, social, physical, and emotional well-being of all of our students.

While we are constantly striving to improve our students' academic achievement, we recognize that a safe environment is crucial to address that goal. Through PTA leadership and parent support, we made the commitment to invest in the Mosaic Project. This is a week-long outdoor school that teaches students to resolve conflicts and develop empathy, self-control, compassion, and appreciation of individual differences. Our first group of fifth grade students attended the camp in September 2006.

We serve the needs of the whole child, which includes providing enrichment classes. One of the features of our school is the Two-Way Immersion program, which offers English-speaking and Spanish-speaking students the opportunity to become bilingual by fifth grade. This not only adds to the ethnic diversity of our school but also allows students to develop cross-cultural awareness and sensitivity.

District Profile

We serve a city founded on the ideal of quality public education. Since 1868 the proud home to a great public university, Berkeley established California's first accredited high school, and in 1968 was the nation's first school district to desegregate without a court order. Our goal is always to give each of our children an equal opportunity to achieve the productive and fulfilled life that education brings.

With an enrollment of just over 9,000 students, Berkeley has 16 schools, from kindergarten through high school, plus extensive preschool and adult education programs. Its eleven elementary schools, with an average enrollment of about 379, are the product of an enduring community commitment to providing small, nurturing environments for our youngest students. Each school's student body represents the full spectrum of Berkeley families, both culturally and economically.

District Mission Statement

The Mission of the Berkeley Unified School District is to enable and inspire our diverse student body to achieve academic excellence and make positive contributions to our world.

Berkeley Unified School District's Vision

Our Students are curious and creative learners who succeed through personal initiative and sustained effort to reach high academic goals. They are critical thinkers who seek knowledge and possess technological competence and collaborative skills. Our students embrace diversity, act responsibly, and contribute to our community.

Our Educators believe that all students can meet or exceed rigorous academic standards. Teachers, staff, and administrators together form a rich professional learning community where all are supported to hone our professional craft and improve our effectiveness. Through the examination of our instructional practices and data, we adjust our teaching and operational systems in order to continuously improve. We are responsible in the stewardship of our fiscal resources and fair and equitable in their distribution.

Our Families and Community are integral to the success of our students and schools. Families are active, engaged and welcomed partners in their child's education, who give valued input and participate in making important decisions about our academic and enrichment programs. Our diverse community is passionate about equitable educational outcomes for all students. Our civic and community organizations partner with us to promote family engagement and the well-being and success of our students.

Our Schools are vital centers of community life enriched by the diversity of our city and welcoming to all families. Each classroom offers engaging and culturally relevant curriculum that builds on students' interests and abilities. Student needs, as identified by regular assessment, inform our teaching and guide appropriate and effective intervention services. We offer an enriched learning environment and a comprehensive system of supports to address the needs of the whole child.

Values and Beliefs of Berkeley Unified School District:

- Students are our priority.
- We take pride in our diversity.
- We hold high expectations for ourselves and our students.
- We treat each other with respect and act with integrity.

Our Community

Berkeley is a community as diverse as any in the nation—and our shared goal is to provide all students with the range of educational experiences that will inspire them to excel. Berkeley teachers are some of the state's experts in teaching classrooms full of students with different achievement levels, learning styles, native languages, and family resources. Our schools feature:

- a respected Early Literacy Program,
- a comprehensive arts and music education,
- enriched programs in science, English as a Second Language, and other disciplines,
- a Universal Learning Support System (ULSS) at each K-5 and 6-8 school designed to offer immediate support services to students and families in need,
- a nationally recognized healthy lunch program coupled with nutrition education for our students through hands-on science, gardening and cooking programs, and
- an extensive athletic program. Berkeley High School boasts more team sports than any public school west of the Mississippi.

There is something for everyone here!

Opportunities for Parent Involvement

It is our parent volunteers who make our school a welcoming and caring community. Our families read with our primary age students in the classrooms, attend field trips, coordinate fund-raisers, and participate in our school governance committees. Our parents help keep our environment clean and have been instrumental in completing our school Safety Plan. Parents use their expertise to write grants to purchase materials, and they present science-based classroom demonstrations and art projects. It is through their ideas and energy that our school has been able to fund enrichment activities, such as our annual Mathematics Festival and various celebrations honoring Latino, African American and Asian heritage, and field trips for all grade levels. What is amazing is that they do this voluntarily; our families invest in our school because they believe in providing our students with a well-versed, memorable, and engaging education.

Our Schools

With an enrollment of just over 9,000 students, Berkeley has 16 schools, from kindergarten through high school, plus extensive preschool and adult education programs. It's eleven elementary schools, with an average enrollment of about 379, are the product of an enduring community commitment to providing small, nurturing environments for our youngest students. Each school's student body represents the full spectrum of Berkeley families, both culturally and economically.

The Berkeley Community believes in well-maintained and safe schools and generously supports the maintenance and safety of our facilities. In 2010, a dedicated maintenance parcel tax, approved by 80% of the voters, and a new construction bond measure, approved by 77% of the voters, ensures that our district can adequately respond to growing enrollment and continue to offer safe and modernized places of learning for our students.

Over 98 percent of Berkeley teachers are qualified with full state-certified teaching credentials, and many have earned post-graduate degrees in their areas of expertise. There are ten national board certified teachers in our district, including the first special education teacher to receive a national board certification.

Professional Development

Administrators and teachers take time each year to improve their teaching skills and to extend their knowledge of the subjects they teach. During the last three school-years, each school in the Berkeley Unified School District dedicated 3 days annually for teacher and administrator professional development. During 2010, 80% of all Berkeley K-5 teachers and site administrators participated in a four-day intensive literacy training to support Readers' Workshop in K-5 classrooms. A site literacy coach provides ongoing support for teachers to improve literacy instruction to students. A math teacher-leader at the site participates in monthly District trainings, and supports math professional development and collaboration at the site. New teachers participate in a rigorous District BTSA program. Teacher-initiated professional development is supported through local funds earmarked for this purpose.

Types of Services Funded

Our school governance committee determine how our state and federal monies are spent. There are ongoing programs and services that are funded yearly, such as in class and after school tutoring, mental health services, additional noon supervision, overnight field trips, etc. Most of our federal Title I funds for low income students pays for our literacy coach who provides one-to-one and small group English language arts instruction, specifically for students who struggle with reading comprehension and basic grammar skills. The literacy coach also support in-class instruction by modeling teaching strategies and brainstorming with teachers way to differentiate instruction.

Every year, the principal, staff, and parents write grants for additional funds for literacy projects, translation services, field trips, assemblies, and materials. Our annual fund-raisers bring together our entire community because we feature student performances and family involvement. Students have the opportunity to participate in talent shows, dance, sing, and engage in various games hosted by parents during our annual Halloween, Latino Heritage Celebration, and Farm and Garden celebrations.

Expenditures Per Pupil and Teacher Salaries (FY 08-09)

This table displays a comparison of the school's per pupil expenditures from unrestricted (basic) sources with other schools in the district and throughout the state, and a comparison of the average teacher salary at the school site with average teacher salaries at the district and state levels. Detailed information regarding school expenditures and teacher salaries can be found at the CDE Web site at <http://www.cde.ca.gov/ds/fd/ec/> and <http://www.cde.ca.gov/ds/fd/cs/>.

School Site Safety Plan

The safety of students and staff is our primary concern. A variety of people visit the campus to volunteer in the classroom and participate in school events. During lunch, recesses, and before-and-after school, staff members supervise students and school grounds to ensure an orderly, safe environment. The school is always fully compliant with all rules, laws, and regulations concerning state earthquake standards and hazardous materials. Earthquake and fire drills are held monthly, and intruder drills are held at least once a year.

Safety procedures, including elements of our Comprehensive Safe School Plan, are reviewed with school and district staff at the start of each school year. The plan was last updated and reviewed with school staff in spring 2010.

Facilities Maintenance

The district administers a scheduled maintenance program to ensure that all classrooms and facilities are well maintained and in good repair. A work order process alerts district personnel of any maintenance needed to be performed and ensures that emergencies are given the highest priority.

Safety issues are the top priority for Maintenance and Operations. District maintenance supervisors inspect school sites continually and complete repairs in a timely manner. They use a work order process to ensure an efficient, prioritized repair process. The district maintenance staff has indicated that 100% of all toilets on school grounds are in working order.

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

Date of Last Inspection: September 20, 2010

This table displays the results of the most recently completed school site inspection to determine the school facility's good repair status.

Curriculum and Instructional Materials

Williams legislation calls for the schools to have enough books in core classes for all students and asks districts to reveal whether those books are presenting information outlined in the California content standards. Textbook materials are adopted by the school board following a rotating adoption cycle for subject specific state adopted textbooks and instructional materials.. 0% of Berkeley Unified School District's students lack their own assigned textbooks and/or instructional materials. All textbooks listed are the textbooks and instructional materials most recently approved by Berkeley Unified School District's and the State Boards of Education.

This table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school, and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

DataQuest and Access to Data

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners). Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

California Standards Tests (CST)

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts and mathematics in grades 2 through 11; science in grades 5, 8, 9, 10, and 11; and history-social science in grades 8, 9, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found at the CDE Web site at <http://star.cde.ca.gov>. *Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy.*

Adequate Yearly Progress (AYP)

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria: 1) Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics, 2) Percent proficient on the state's standards-based assessments in ELA and mathematics, 3) API as an additional indicator and 4) Graduation rate (for secondary schools).

AYP Overall and by Criteria

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

Academic Performance Index (API)

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.
